RETRACTABLE AWNINGS
BAT GROUP:
Thanks to KE’s experience and strong organization, we are a leading company in the field of Retractable Awnings. KE is part of the BAT GROUP, a multinational company which guarantees positive synergies between materials, innovation and choices. KE is always investing in research in order to reach new solutions to improve functionality and elegance.

DESIGN:
The aim of KE designs is to achieve the optimal integration between the architecture and protection needs. Our design department is constantly involved in innovative research to add value and preserve the quality of the outdoor environment.

KE PATENTS:
KE offers innovative, operational and patented techniques. All of the KE shading systems come from creative ideas which offer unique advantages in application and durability.

LONG-TERM INVESTMENT:
KE uses only the finest materials available from around the world to produce truly superior additions to your customers’ home. Our advanced manufacturing and skilled craftsmanship technologies ensure KE customers will receive the highest quality products possible.
Create an eye-catching look for your deck or patio while adding living space for you to enjoy!

Your KE Durasol Retractable awning provides high grade UV protection, allowing everyone to stay outdoors longer without concern of the harmful effects of the sun.

From full-featured awnings to affordable entry-level models, the Retractable family of awnings has what you’re looking for. Providing on-demand solar protection, Retractable awnings expand your home beyond its walls. With the touch of a button or turn of the crank, these awnings transform your deck, patio, or terrace into an attractive and comfortable expanded living space.
Add living space to your deck or patio by creating the perfect outdoor environment for you to enjoy

Design and functionality

An extra living space that everyone will enjoy... transform your deck, patio, or terrace into the best room of the house. Keep your home’s traditional appearance by installing a stationary awning or create a more contemporary look with a retractable system.

Maximize your outdoor living space, provide relief from the sun’s harmful rays, reduce energy costs and create an elegant expression of your personal taste and style.

Versatile and beautiful... our awnings are custom-crafted and professionally installed to create a cool, natural extension to your home.

Start enjoying the outdoors!
KE’s awnings features guarantees durability, resistance to the elements, functionality and the latest aesthetic standards. KE believes, the best defense of any investment is quality and performance.

RETRACTABLE AWNINGS

RETRACTABLE AWNINGS FEATURES

- **Maximum width dimensions** on a single unit up to 46’, projection up to 15’ 11”
- **Roller Bat.** Patented fabric rolling designed the fabric roll up by allowing the fabric on the roller tube to attach flat, eliminating the normal bump on the roller tubes
- **Wind resistance:** all products receive rigorous environmental testing — industry standard classification - EN1932
- **Overall dimension:** Structural elements with minimized proportions permit a high aesthetic impact
Ease of installation: Thanks to the fastening system design which allows the awning to be installed on most mounting surfaces.

Fabrics: A wide range of fabrics are available: over 500 fabrics to choose from.

Automation: Climate sensors (wind, rain, sun), combined with cutting edge technology, allows customization for opening and closing the awning. Moreover, the smart phone and tablet app. allows control at home or away.

New Belt Arms: Designed for maximized life duration.
BELLA PLUS
FULL OR SEMI CASSETTE

Full or Semi Cassette design features a complete profile design option that completely encapsulates your awning for total protection from the environment.

The profiles for the front rail, bottom cover, and optional backside offer a variety of choices for the awning design and performance capability. With arm projections available to up to 14’3”, this awning also has a direct mounting bracket setup from the mounting torsion bar integrated into the design.

Integrated into the design an optional manual or motorized drop valance on the semi-cassette unit.

**FULL CASSETTE**

- Complete profile design option
- Protects your awning from the elements
